

**For Immediate Release: 8 August 2019**

## **Wei Bo Associates HK Ltd. Announces Strategic Alliance with Teledyne e2v HIREL Electronics**

Wei Bo Associates HK, Ltd., the industry's leading provider of High Power SMT RF Limiters and Switches today announces establishing a strategic partnership with Teledyne e2v HIREL Electronics ([www.teledyne-e2v.com](http://www.teledyne-e2v.com)) to provide OEM sales within North America and to also provide HIREL & SPACE qualified versions of Wei Bo Associates standard products on a worldwide basis. Wei Bo Associates standard products are designed and manufactured to be capable of being screened to meet HIREL standards, but those formal product ratings have not been available directly from the company. Teledyne e2v HIREL Electronics supplies a broad range of HIREL components and subsystems to the aerospace & defense market and also offers HIREL screening services to the industry. Under the terms of this agreement, Teledyne e2v HIREL Electronics will offer for sale under their own part numbers Wei Bo Associates products which have undergone HIREL & SPACE screening.

"Wei Bo Associates is very excited about our strategic alliance with Teledyne e2v HIREL Electronics and the new opportunities which this relationship brings to our mutual business" stated Tim Emery, Vice President of Business Development for Wei Bo Associates HK, Ltd. "Wei Bo Associates has enjoyed a large number of successes and as we celebrate our 5<sup>th</sup> anniversary we are humbled by the trust and support of our customers, suppliers and sales channel partners" continued Mr. Emery.

**Wei Bo Associates HK, Ltd** offers an extensive line of high power, high reliability, SMT Limiter and Switches in the HF to X Band frequency range designed, developed and produced from the company's Asia base of operation. Founded in 2014 by former senior management of Aeroflex & MACOM specifically focused on supporting a worldwide clientele of RF customers from the world's most business friendly base of operations in Malaysia and Hong Kong.

**Teledyne e2v HIREL Electronics** offers high-performance, high-reliability semiconductor solutions, which address the critical functions of the complete signal chain. With a range of products and package solutions, we cater to civil aerospace, industrial, medical, military, scientific and space applications. Many of Teledyne e2v's products are developed through strategic partnerships with companies such as NXP, Everspin, Micron and others. In addition, Teledyne e2v provides a range of specially qualified versions of many standardized products. We also develop customized solutions to meet specific qualifications or environmental requirements.
